SP[®]
SOLUTIONS POWER
ENGINEERING SMART FUTURE

**ENGINEERING
SMART FUTURE**

Our History

SolutionsPower® is one of the prestigious companies interwoven with the development of the MEP & Low Current Engineering and Contracting industry in the KSA.

For more than ten years, Team SolutionsPower® has excelled in engineering and executing countless projects in different sectors including, Residential, Healthcare, Industrial, and Hospitality.

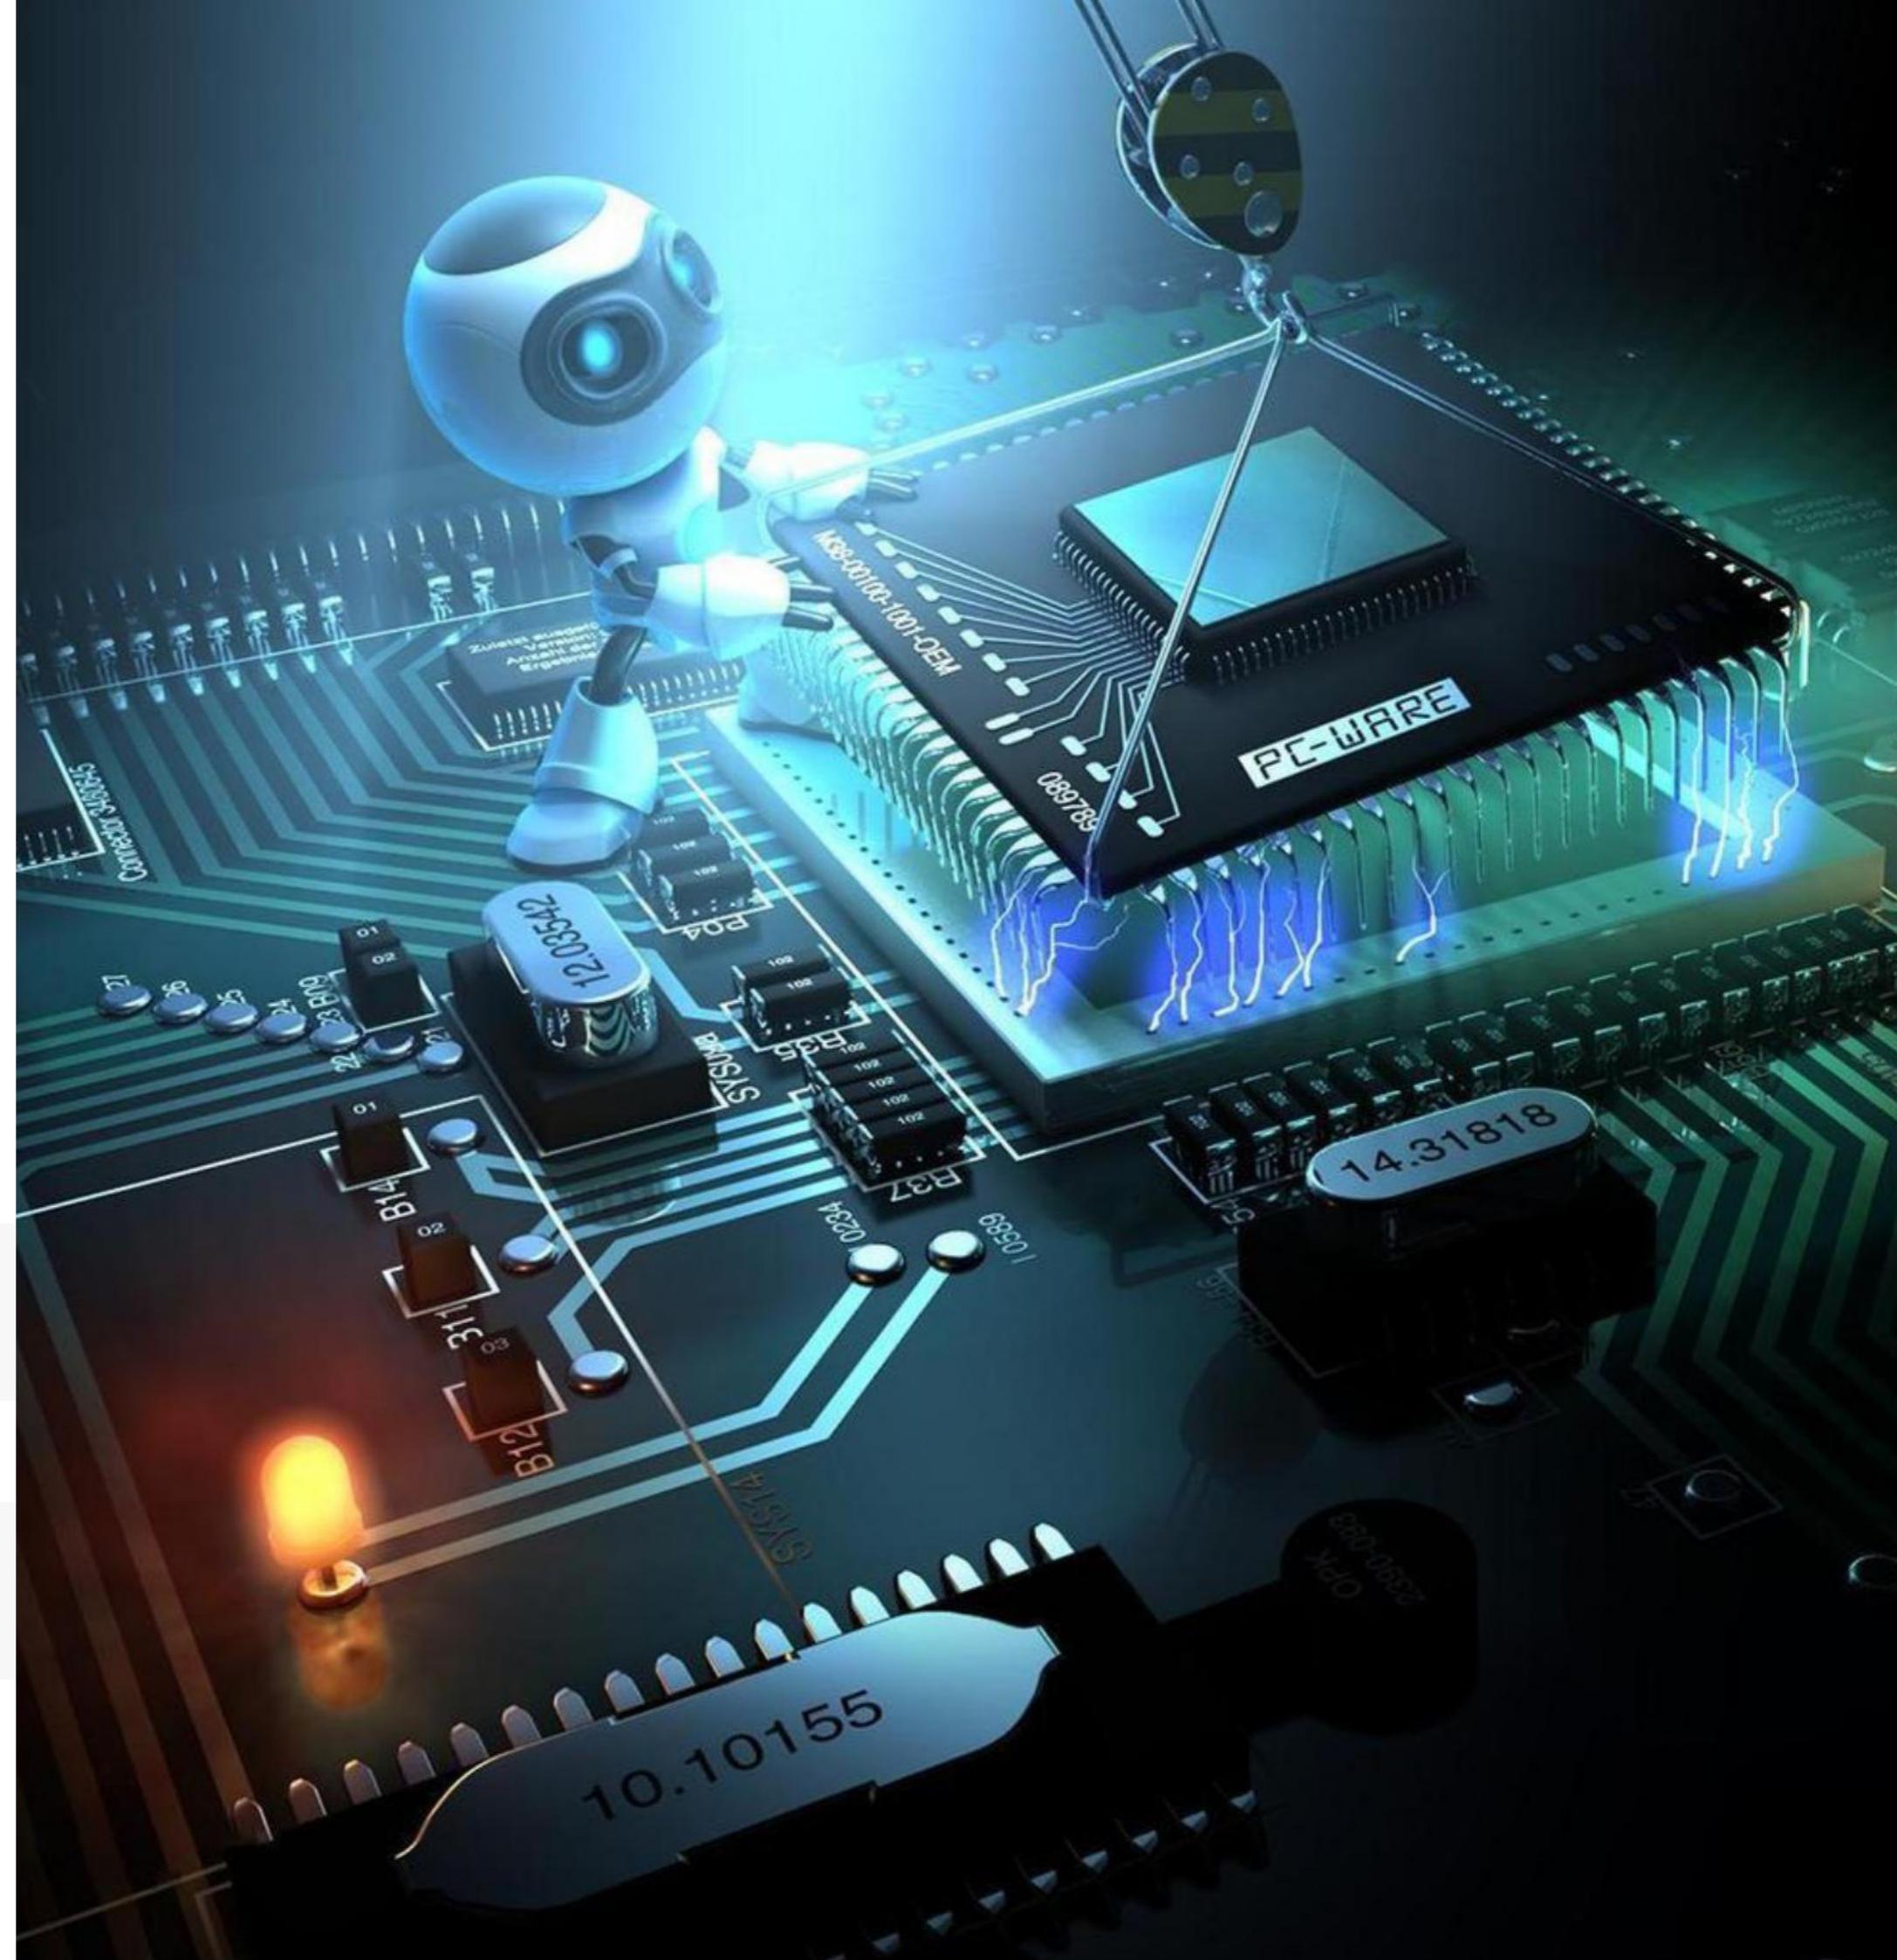

Our commitment to execute projects with high est. quality, on schedule and within budget while adhering to excellent standards of health, safety and environment, positioned, SolutionsPower® to be recognized as an icon in Electro-Mechanical Engineering.

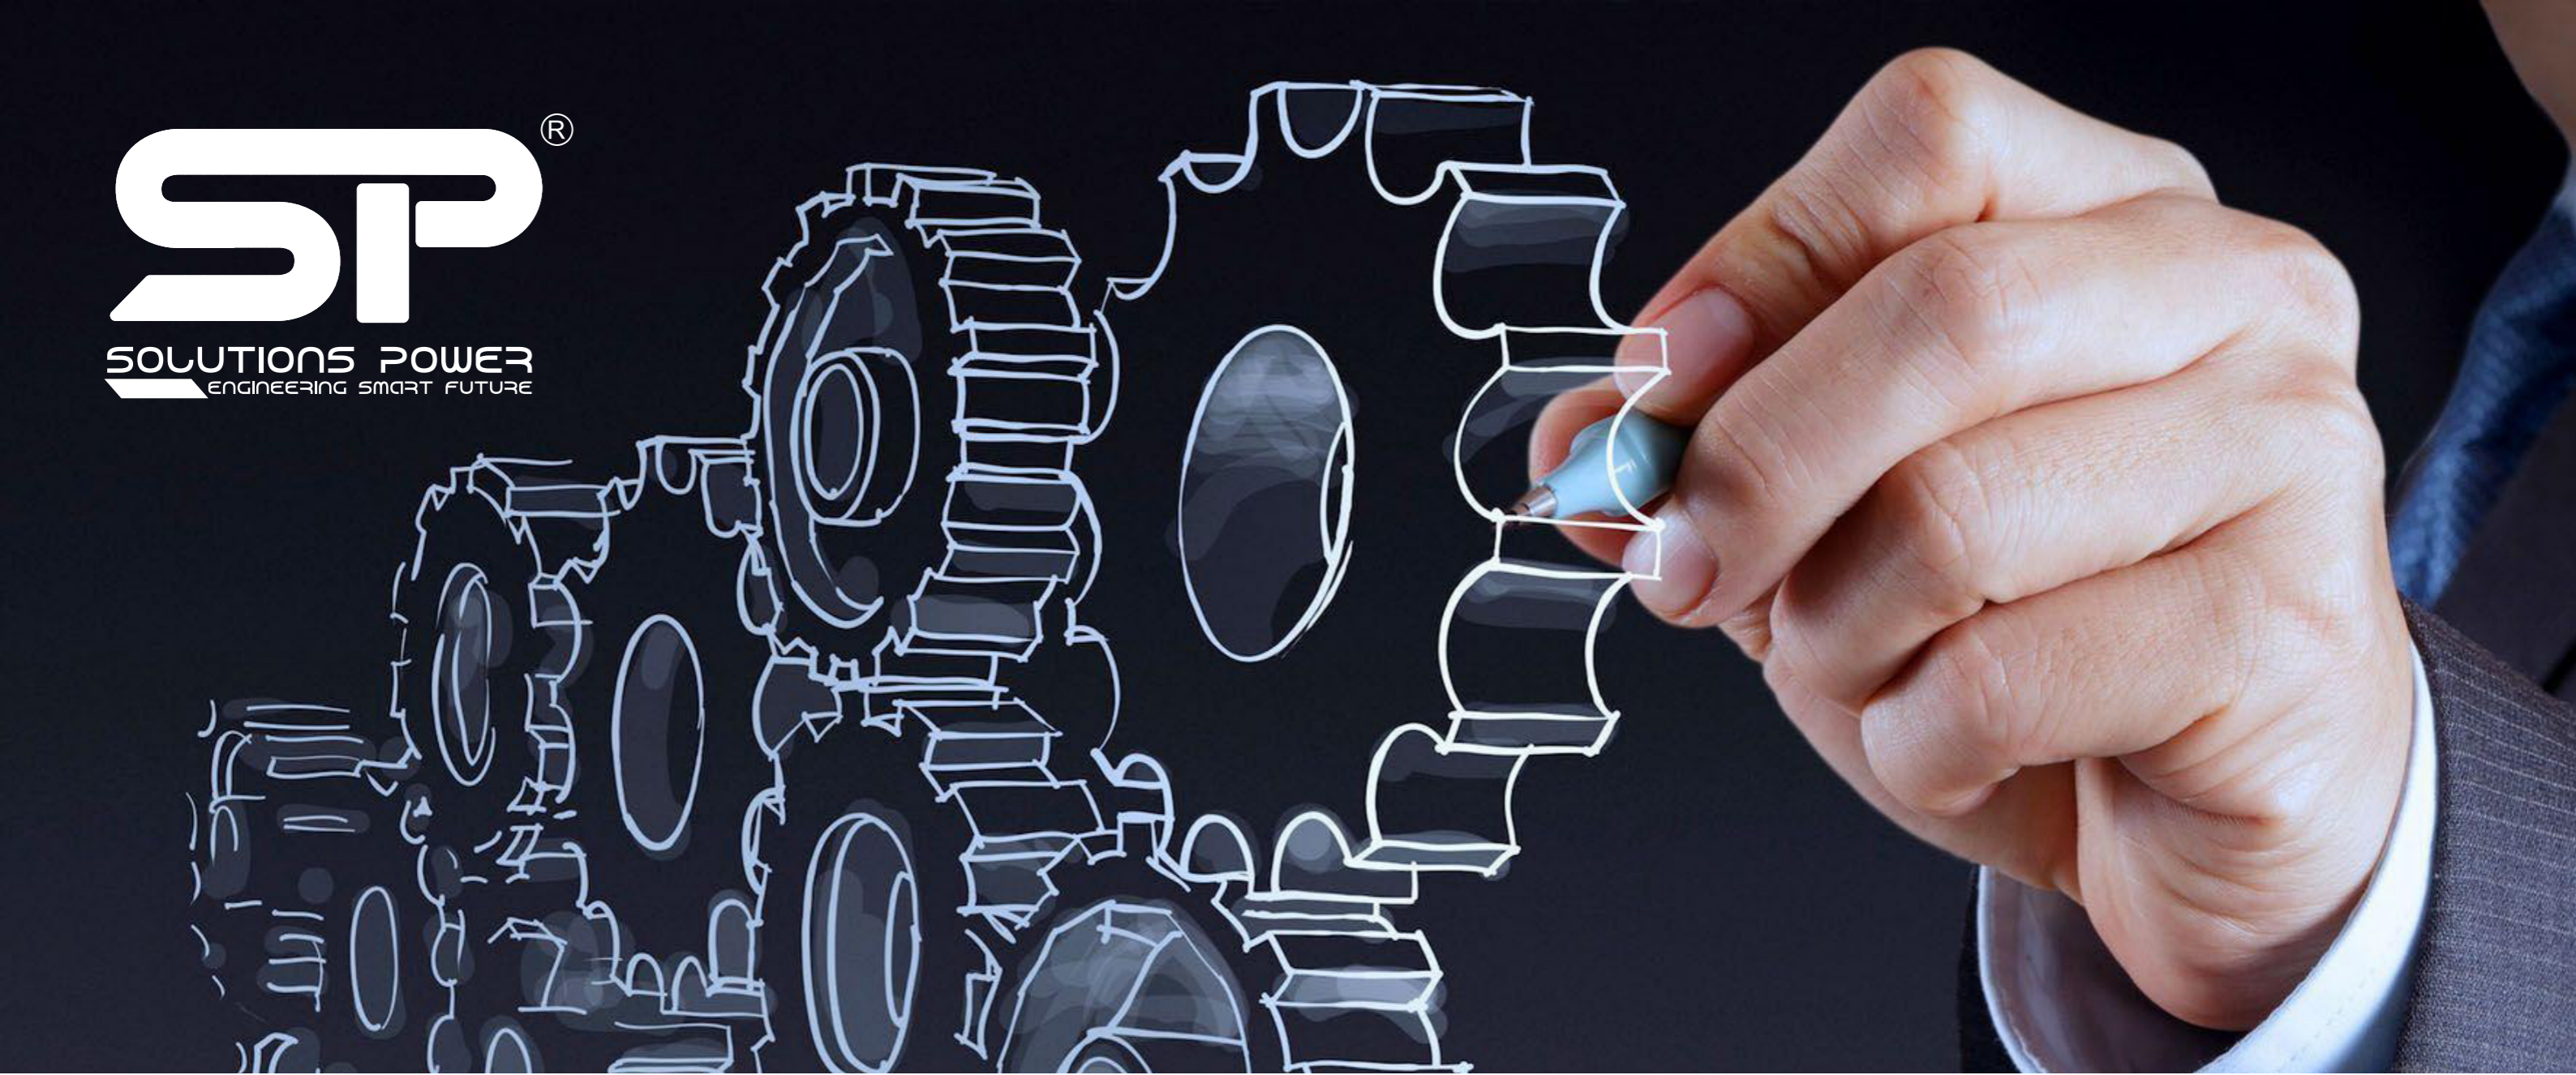

With the professional, experienced & devoted workforce and a progressive management the SolutionsPower® is moving towards a better future.

Our Drivers

SolutionsPower® result-oriented culture is manifested through a “can do” attitude. It is driven by:

- Excellence: We take care of the details that ultimately produce top-tier quality solutions.
- Professionalism: Our focus is on the job and client satisfaction.
- Efficiency: We invest time and effort in care full planning and implementation.
- Innovation: We encourage our team to think outside the box.
- Continuous learning: Our team develop their skills through technical and managerial training.
- Team work: We support an open exchange of information and resources with our clients and employees.
- Adaptability: We ensure that the evolving client needs are met with the highest standards.

Our Mission

Our purpose is to positively impact lifestyles of the communities we serve through consistent, timely, quality, efficient and value added delivery of engineered, innovative and tailor-made technology solutions that constantly exceed expectations.

Our Vision

Our aspiration is to become a sustainably growing and profitable MEP & Low Current Engineering & Contracting service provider through building effective and efficient operations in KSA and to consolidate SolutionsPower[®] as a recognized quality centric brand in all our fields of activities.

Our Skills

Team SolutionsPower[®] cultivates its success with its multidisciplinary expertise in the complete process of tertiary and industrial facility design and contracting. Our team's specialized skills are manifested from design review through project management to the final delivery of turnkey projects. Most of our senior engineers and staff have acted as project managers, both in-house and for various international customers interfacing with other engineering firms and contractors.

Safety

Team SolutionsPower[®] cultivates its success with its multidisciplinary expertise in the complete process of tertiary and industrial facility design and contracting. Our team's specialized skills are manifested from design review through project management to the final delivery of turnkey projects. Most of our senior engineers and staff have acted as project managers, both in-house and for various international customers interfacing with other engineering firms and contractors.

Our Core Values

Our core values are translated into every aspect of our business.

- **Integrity:** We trust and can be trusted. Integrity is the guiding principle in our business interactions. It is an unconditional commitment to respect the trust of clients and employees alike. We stand by what we say and take accountability on every decision we make.
- **Quality:** We always strive for the best. Delivering optimum quality services is a must. We do not aim to meet customers' expectations. We aim to exceed them.

- **Human capital:** We believe in our team. Our most valuable asset is our team. We cherish a learning culture and nurture the potential of our employees.
- **Innovation:** We will always find a way. Our company strives to continuously come up with solutions that create value for customers. We empower employees and embrace innovative developments in all our business processes.
- **Sustainability:** We respect our environment and community. Our company cares for the environment. Conserving valuable resources is one of our many environment-friendly strategies. Maintaining sustainable operations is also part of our strategy to continue serving our community for many generations to come.

**CONTINUOUS INNOVATION

PLUMBING

Engineering

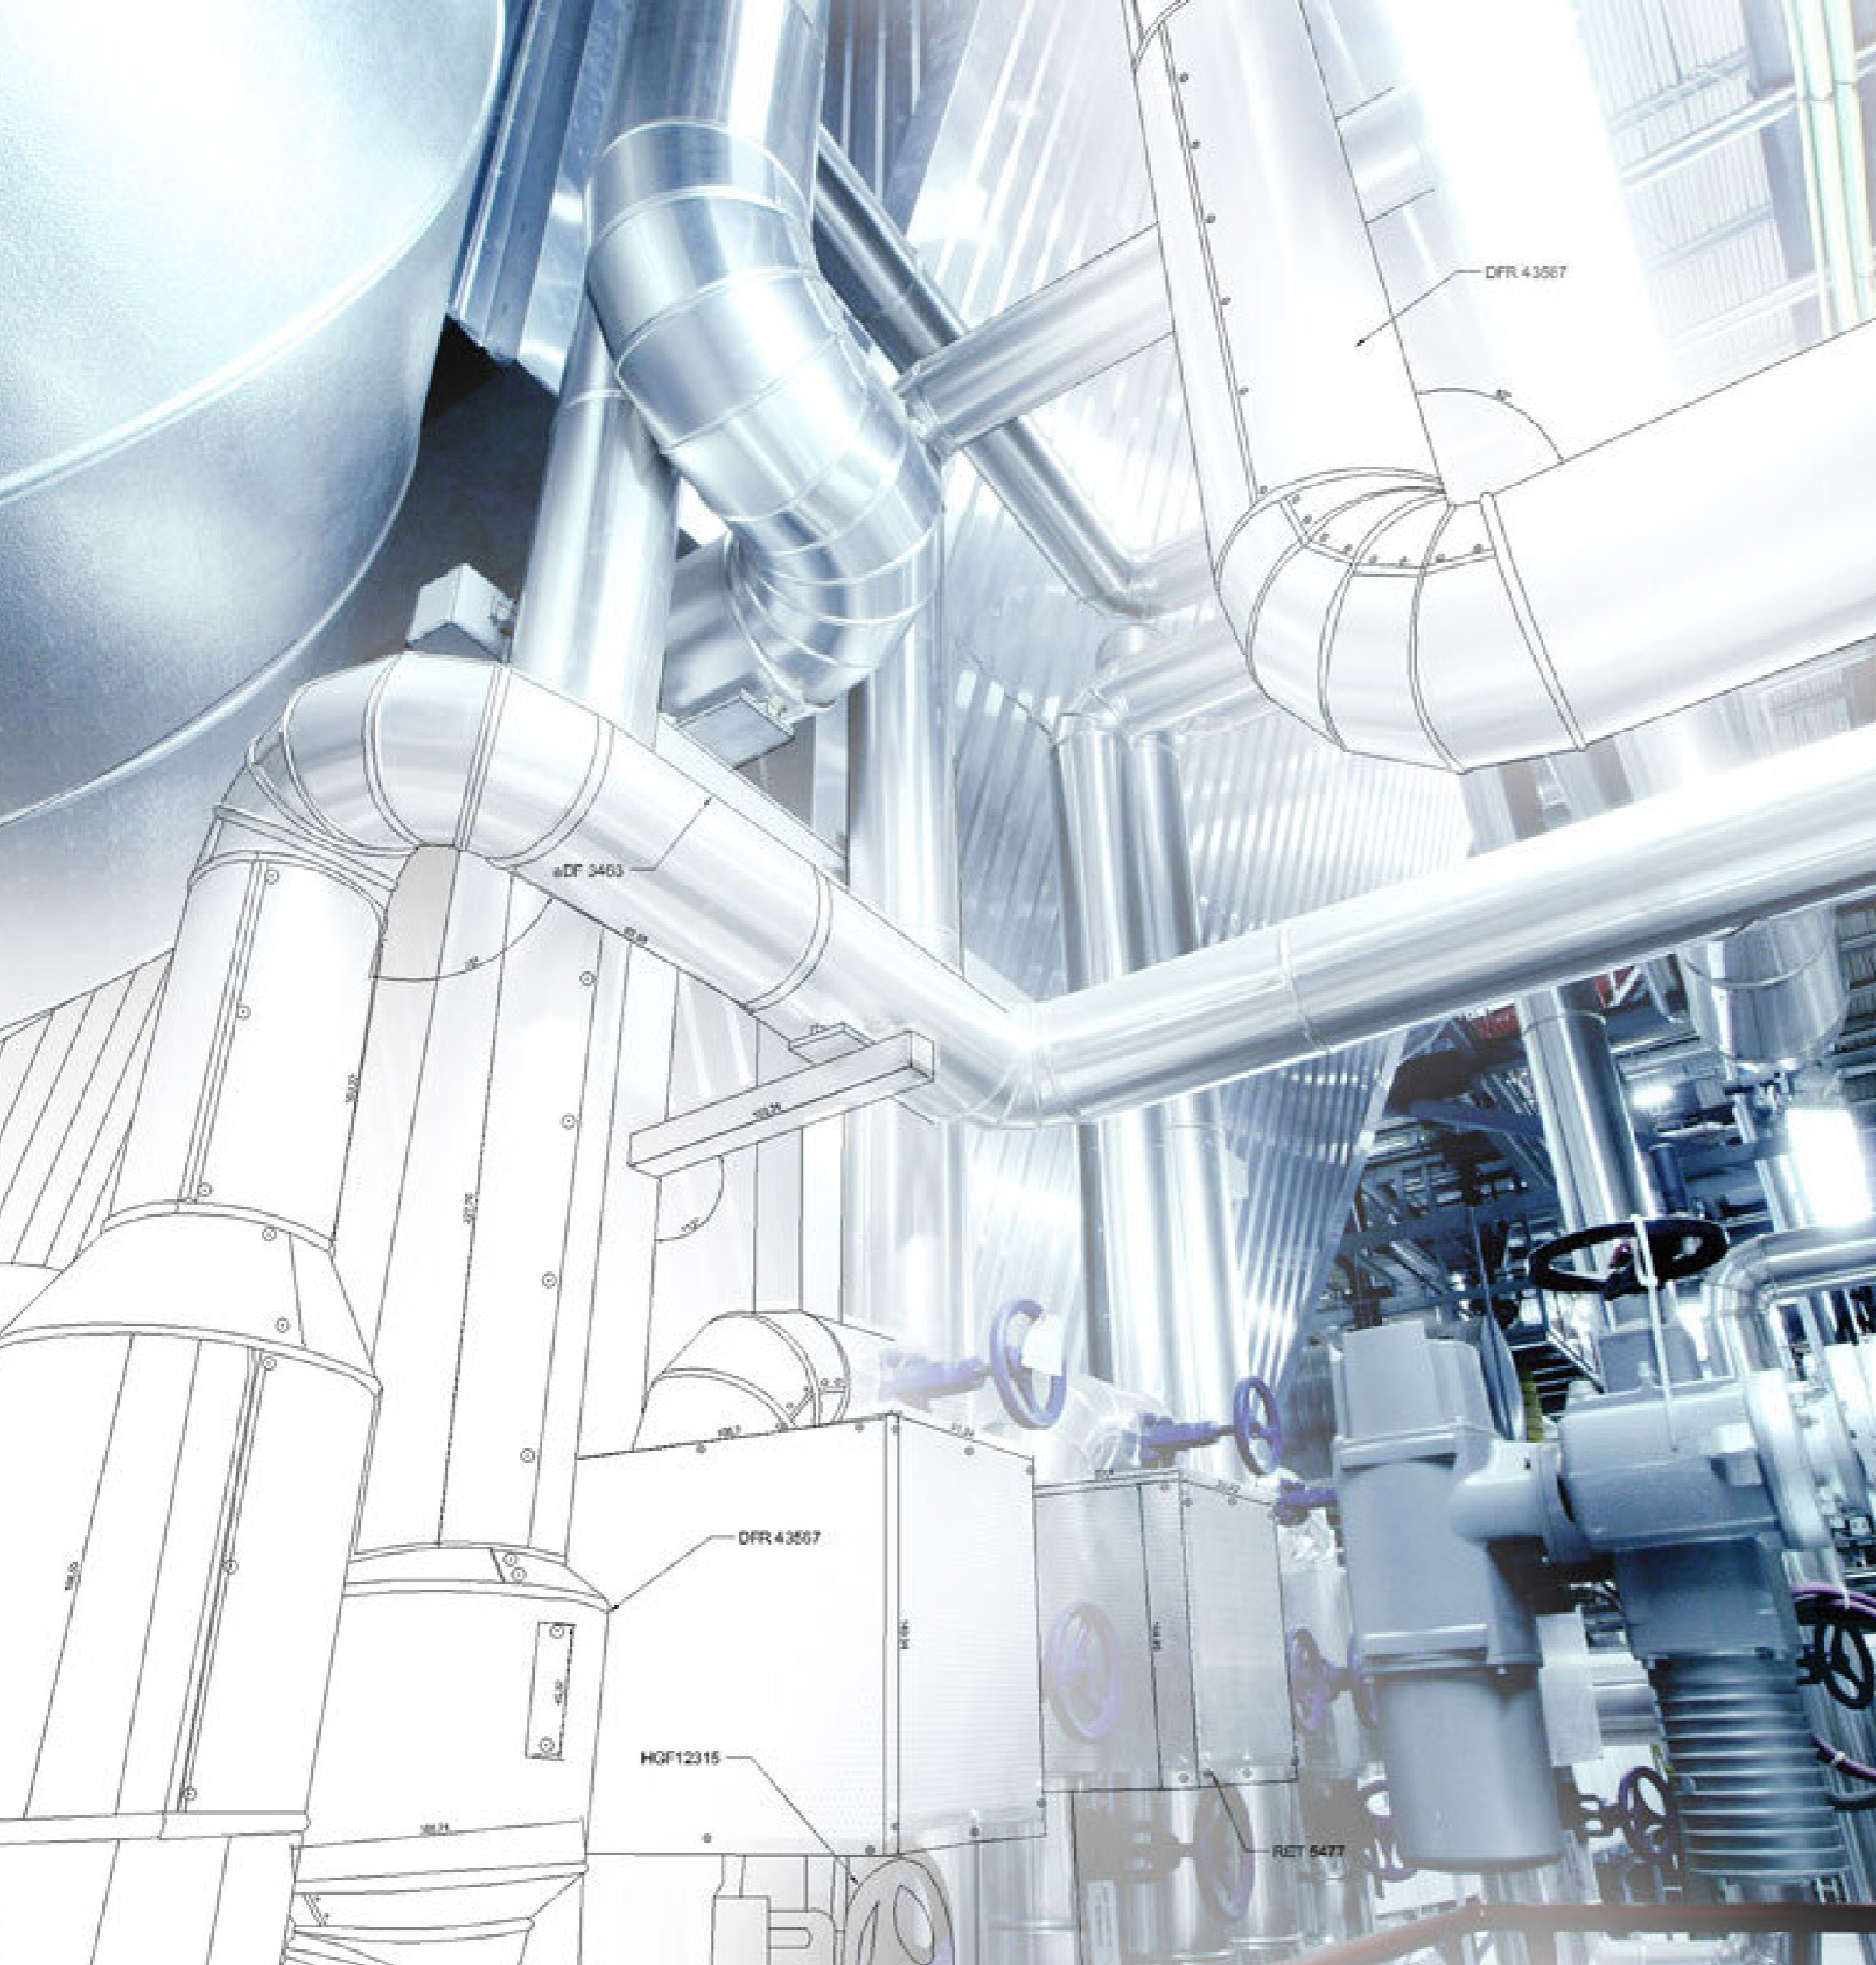

SolutionsPower® success stems from its dedication to provide customers with proven professional services and cost-effective solutions driven by transparency. As such, the company focuses on delivering tailor-made projects with quality-centric workmanship.

SolutionsPower® has an in house technical team offering round-the-clock services to ensure that our clients are satisfied from project inception until its final completion.

SolutionsPower® broad range of engineering services and solutions include:

- Conceptual and preliminary engineering
- Evaluation of tender documents
- Design review and value engineering
- Project cost estimation
- Equipment and materials procurement
- Planning and scheduling
- Detailed design & shop drawings
- Inspection, quality assurance and control
- Testing & commissioning
- Operator training

Mechanical

HVAC

We install, maintain and repair climate-control systems in thermal comfort and maintaining good indoor air quality is our main purpose. SolutionsPower® strives to install systems with the perfect quality-cost balance that successfully provides superior air quality while incurring low energy costs and allowing easy maintenance. What sets us apart is that our team undergoes continuous extensive training that is unmatched in the industry. We and maintains systems, install controls, test individual parts, and replace worn-out components.

- Ventilation and air filtration systems
- Chilled water systems
- DX / VRV systems
- Package units
- Extract fans
- Fresh Air Handling Units
- Ecology Units and Make up Air Handling Units
- CCU
- GI and PI Ducting

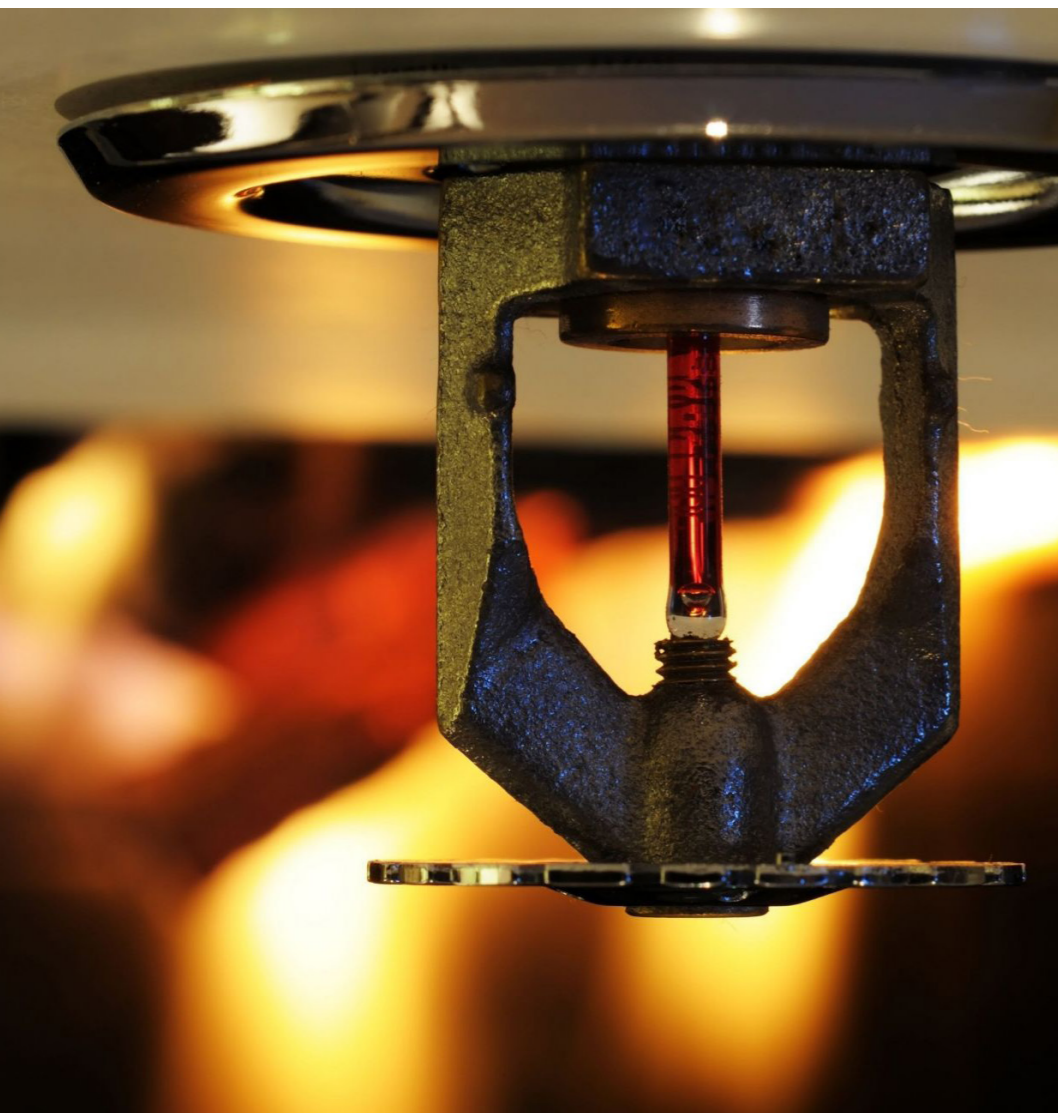

Plumbing

SolutionsPower® puts lots of emphasis to ensure that every plumbing system installed is equipped with valve assemblies and devices for the proper distribution of water. Our Designers always assure to implement global and KSA regulations and standards to guarantee delivering best quality. The plumbing systems that We specializes in:

- Sanitary and drainage systems
- Water distribution
- Water treatment
- Variable and fixed speed pumping systems
- Solar Heaters
- Kitchen and laundry plumbing
- Irrigation systems and controls
- Sand traps and grease traps

Fire Fighting

The reliable protection systems we install have one main purpose which is to prevent the interruption of services necessary for the public welfare and avoid area wide conflagrations, all the while putting the safety of life at the utmost priority.

- Fire suppression systems
- Fire extinguishers
- Fire hose reels
- Fire hydrant systems
- Automatic sprinkler systems
- Dry and wet riser

Electrical

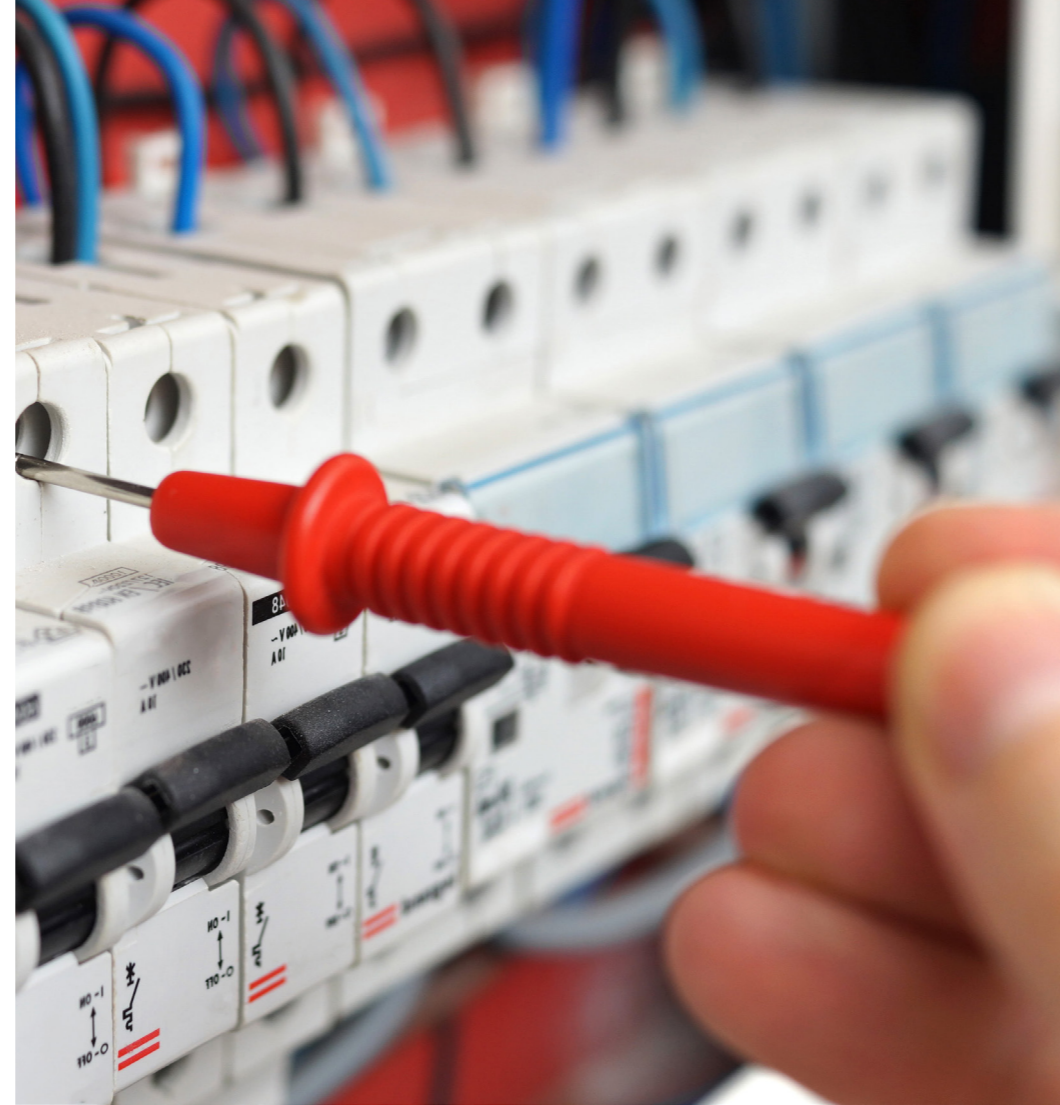

Low Voltage

SolutionsPower® engineers low voltage systems that distributes power where is needed, safely and reliably, while providing optimal protection for personnel and equipment. Our range of low voltage distribution elements includes:

- Grounding
- Main Distribution Boards (MDB)
- Secondary Main Distribution Boards (SMDB)
- Final Distribution Boards (FDB)
- Cables
- Lighting fixture
- Sockets

Emergency power systems are extremely useful in many different settings such as residential homes, hospitals, research laboratories, data centers, and telecommunication centers. SolutionsPower® works specializes in many emergency power systems that include:

- Generators
- UPS

Low Current

- Data and Communication
- Fire Alarm
- Access Control
- Queue Management System
- BMS (Building Management System)
- Audio Visual
- Lighting Control System
- Video and Audio Intercom System
- CC TV Systems
- IT,IP Telecommunications
